Dear Valued Partners,

America Mortgages was created to address the problem of securing a U.S. mortgage while living overseas as an expat or non-U.S. citizen.

The existing bank options are very limited and incredibly difficult to qualify for since they were created to accommodate U.S. citizens living onshore.

We have fixed this!

We have now curated over 150 wholesale lending relationships, bringing more options directly to you!

With over 30 loan officers in 12 different countries, we speak your language in your time zone and more importantly, understand the complexities of our international clientele.

Why use America Mortgages?

- We are the world's ONLY U.S. mortgage specialist outside the U.S.
- We ONLY serve non-residents, both U.S. Expats and Non-U.S. citizens
- Our job is to find the right loan program that suits your client's specific needs
- We approve over 97% of loans submitted

Our team works with care and transparency and have created a process that makes your mortgage journey as stress-free as possible.

Included, you will find a list of our popular loan programs.

Thank you for the opportunity and we look forward to working with you.
